

# MNHSWA 2020 Virtual Fall Conference Vendor Registration

We will miss seeing our vendors in person this year and we didn't want to leave anyone out of our conference so we are offering a virtual option for you as well!

## Registration Includes:

**Your 30 second video posted on our website.**

**Your contact information and link to website listed on our page.**

**Links to your website listed on our social media platforms**

**The opportunity for your employees to receive CEU's at a very reasonable rate.**

**All for only \$50!**

Since we will not have the opportunity to connect at a vendor table, we'd like to instead have you create a 30 second video about your company/organization and what services you can provide for our members and the older adults they work with. This can be sent to us or uploaded directly to YouTube and we can link it on our webpage at [www.mnhswa.org](http://www.mnhswa.org) and on other social media platforms we use. With the video we would also include contact information for your organization as well as a link to your website.

We will be reminding our members to visit the website at each of the sessions, and your links will be on the same page where attendees access their handouts and links for speakers.

As in the past we have offered our vendors a chance to obtain CEU's for the sessions and we would like to extend that option to you again. If you are a registered vendor you may register one person within your organization to attend the sessions. If more wish to attend no worries, they can register separately as a participant!

All registrations will be completed online this year through our google forms at: <https://bit.ly/30UKz1q>
